# SAFETY DATA SHEET

TO COMPLY WITH OSHA HAZARD COMMUNICATION STANDARD 29 CFR.1910.1200 & THE GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS

## 1. PRODUCT AND COMPANY IDENTIFICATION

### 1.1 Product Identifier

<table>
<thead>
<tr>
<th>Substance Name:</th>
<th>TotalBoat MEKP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Product Code(s):</td>
<td></td>
</tr>
</tbody>
</table>

### 1.2 Distributor

TOTALBOAT LLC  
17 Peckham Drive  
Bristol, RI 02809  
T 1-800-497-0010  
F 1-401-254-5829

### 1.3 Emergency Telephone Number

| Emergency Number: | INFOTRAC: 1-800-535-5053 |

## 2. HAZARDS IDENTIFICATION

### Label Elements:

#### Pictogram

![Pictogram]

#### Signal Word

- Danger

#### Hazard statements

- **H242**: Heating may cause a fire.
- **H302**: Harmful if swallowed.
- **H314**: Causes severe skin burns and eye damage.

#### Precautionary statements

- **P210**: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- **P220**: Keep away from acids, alkalis, heavy metal compounds, oxidizing material, combustible materials.
- **P234**: Keep only in original container.
- **P280**: Wear protective gloves/ protective clothing/ eye protection/ face protection.
- **P301+P312**: IF SWALLOWED: Call a POISON CENTER/ doctor if you feel unwell.
- **P305+P351+P338**: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- **P411+P235**: Store at temperatures not exceeding 5-30°C. Keep cool.
- **P501**: Dispose of contents/ container in accordance with national regulations

### Contains

- Reaction mass of butane-2,2-diyldihydroperoxide and di-sec-butylhexaoxidane

### Other hazards

- Reaction mass of butane-2,2-diyldihydroperoxide and di-sec-butylhexaoxidane
3. COMPOSITION / INFORMATION ON INGREDIENTS

Mixtures:

<table>
<thead>
<tr>
<th>CHEMICAL</th>

The full text for all hazard statements is displayed in Section 16.

4. FIRST AID MEASURES

General information
Get medical attention if any discomfort continues. Show this Safety Data Sheet to personnel. Chemical burns must be treated by a physician.

Inhalation
Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. Rinse nose and mouth with water. Never give anything by mouth to an unconscious person. Get medical attention if symptoms are severe or persist.

Ingestion
Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person. Place unconscious person on their side in the recovery position and ensure breathing can take place.

Skin contact
It is important to remove the substance from the skin immediately. Rinse immediately with plenty of water. Continue to rinse for at least 15 minutes and get medical attention. Chemical burns must be treated by a physician.

Eye contact
Rinse immediately with plenty of water. Do not rub eye. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention.

Most important symptoms and effects, both acute and delayed

General information
The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Length of exposure.

Inhalation
A single exposure may cause the following adverse effects; corrosive to the respiratory tract. Symptoms following overexposure may include the following: Severe irritation of nose and throat.
Ingestion  May cause chemical burns in mouth, esophagus and stomach. Symptoms following overexposure may include the following: Severe stomach pain, Nausea, vomiting.

Skin contact  Causes severe burns. Symptoms following overexposure may include the following: Pain. Profuse watering of the eyes, Redness.

Notes for the doctor  Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media

Suitable extinguishing media
The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Special hazards arising from the substance or mixture

Specific hazards
May cause or intensify fire; oxidizer. Containers can burst violently or explode when heated, due to excessive pressure build-up. This product is toxic. Severe corrosive hazard. Water used for fire extinguishing, which has been in contact with the product, may be corrosive.

Hazardous combustion
Thermal decomposition or combustion products may include the following substances: Very toxic or corrosive gases or vapors.

Advice for firefighters

Protective actions during firefighting
Avoid breathing fire gases or vapors. Evacuate area. Keep upwind to avoid inhalation of gases, vapors, fumes and smoke. May cause or intensify fire; oxidizer. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapors and protect men stopping the leak. Avoid discharge to the aquatic environment. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.

Special protective equipment for firefighters
Regular protection may not be safe. Wear chemical protective suit. Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter’s clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.
6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions
Wear protective clothing as described in Section 8 of this safety data sheet.
No action shall be taken without appropriate training or involving any personal risk.
Avoid inhalation of dust and vapors.
Use suitable respiratory protection if ventilation is inadequate.
Avoid contact with skin and eyes.

Environmental precautions
Avoid discharge into drains or watercourses or onto the ground.
Avoid discharge to the aquatic environment.

Methods and material for containment and cleaning up
Wear protective clothing as described in Section 8 of this safety data sheet.
Clear up spills immediately and dispose of waste safely.
Eliminate all sources of ignition.
No smoking, sparks, flames or other sources of ignition near spillage.
Use only non-sparking tools.
Do not allow material to enter confined spaces, due to the risk of explosion.
This product is corrosive.
Provide adequate ventilation.
Small Spillages; collect spillage.
Large Spillages: Absorb spillage with non-combustible, absorbent material.
The contaminated absorbent may pose the same hazard as the spilled material.
Collect and place in suitable waste disposal containers and seal securely.
Label the containers containing waste and contaminated materials and remove from the area as soon as possible.
Flush contaminated area with plenty of water.
Wash thoroughly after dealing with a spillage.
For waste disposal, see Section 13.

Reference to other sections
For personal protection, see Section 8.
See Section 11 for additional information on health hazards.
See Section 12 for additional information on ecological hazards.
For waste disposal, see Section 13.

7. HANDLING AND STORAGE

Precautions for safe handling
Read and follow manufacturer’s recommendations.
Wear protective clothing as described in Section 8 of this safety data sheet.
Keep away from food, drink and animal feeding stuffs.
Handle all packages and containers carefully to minimize spills.
Keep container tightly sealed when not in use.
Avoid the formation of mists. Avoid the formation of mists.
This product is corrosive.
Immediate first aid is imperative.
Do not handle until all safety precautions have been read and understood.
Do not handle broken packages without protective equipment.
Do not reuse empty containers.

Advice on general occupational hygiene
Wash promptly if skin becomes contaminated.
Take off contaminated clothing.
Wash contaminated clothing before reuse.
Conditions for safe storage, including any incompatibilities

Storage precautions
Store locked up.
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.
No smoking.
Store away from other materials.
Keep only in the original container.
Keep container tightly closed, in a cool, well ventilated place.
Keep containers upright.
Protect containers from damage.
Protect from sunlight.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Control parameters

Occupational exposure limits

**Dimethyl Phthalate**
Long-term exposure limit (8-hour TWA): WEL 5 mg/m³
Short-term exposure limit (15-minute): WEL 10 mg/m³

**butanone**
Long-term exposure limit (8-hour TWA): WEL 200 ppm 600 mg/m³
Short-term exposure limit (15-minute): WEL 300 ppm 899 mg/m³
Sk
WEL = Workplace Exposure Limit
Sk = Can be absorbed through the skin.

Exposure controls

Protective equipment

| ![Eye/face protection](image) |

Appropriate engineering controls
Provide adequate ventilation
Observe any occupational exposure limits for the product or ingredients.

Eye/face protection

Wear tight-fitting, chemical splash goggles or face shield.

If inhalation hazards exist a full- face respirator may be required instead.
Hand protection

Wear protective gloves.

The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material.

Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected.

Frequent changes are recommended.

Wear protective gauntlets made of the following material: Butyl rubber, Nitrile rubber, Polyvinyl chloride (PVC).

Other skin and body protection

Hygiene measures

Wash hands thoroughly after handling.

Wash at the end of each work shift and before eating, smoking and using the toilet.

Do not eat, drink or smoke when using this product.

Respiratory protection

Ensure all respiratory protective equipment is suitable for its intended use and is ‘CE’-marked.

Check that the respirator fits tightly and the filter is changed regularly.

Full face mask respirators with replaceable filter cartridges should comply with European Standard EN136.

Environmental exposure controls

Keep container tightly sealed when not in use.

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

10. STABILITY AND REACTIVITY

Reactivity

There are no known reactivity hazards associated with this product.

Chemical stability

Stable at normal ambient temperatures and when used as recommended.

Stable under the prescribed storage conditions.
Possibility of hazardous reactions
No potentially hazardous reactions known.

Conditions to avoid
Avoid heat, flames and other sources of ignition.

Incompatible materials to avoid

Hazardous decomposition products
Oxygen.
Thermal decomposition or combustion products may include the following substances: Corrosive gases or vapors.

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity – oral
Notes (oral LD₅₀) Acute Tox. 4 - H302 Harmful if swallowed.
ATE oral (mg/kg) 1,282.05

Acute toxicity – dermal
Notes (dermal LD₅₀) Based on available data the classification criteria are not met.

Acute toxicity – inhalation
Notes (inhalation LC₅₀) Based on available data the classification criteria are not met.
ATE inhalation (vapors mg/l) 28.2

Skin corrosion/irritation
Animal data Skin Corr. 1B - H314 Causes severe burns.

Serious eye damage/irritation
Serious eye damage/irritation Eye Dam. 1 - H318 Corrosive to skin. Corrosivity to eyes is assumed.

Respiratory sensitization
Respiratory sensitization Based on available data the classification criteria are not met.

Skin sensitization
Skin sensitization Based on available data the classification criteria are not met.

Germ cell mutagenicity
Genotoxicity - in vitro Based on available data the classification criteria are not met.
Mutagenicity

Carcinogenicity
Carcinogenicity Based on available data the classification criteria are not met.
IARC carcinogenicity None of the ingredients are listed or exempt.

Reproductive toxicity
Reproductive toxicity - fertility Based on available data the classification criteria are not met.
Reproductive toxicity - development Based on available data the classification criteria are not met.

Specific target organ toxicity - single exposure
STOT - single exposure Not classified as a specific target organ toxicant after a single exposure.

Specific target organ toxicity - repeated exposure
STOT - repeated exposure Not classified as a specific target organ toxicant after repeated exposure.
Aspiration hazard

Based on available data the classification criteria are not met.

Inhalation
Corrosive to the respiratory tract.
Symptoms following overexposure may include the following: Severe irritation of nose and throat.

Ingestion
May cause chemical burns in mouth, esophagus and stomach.
Symptoms following overexposure may include the following: Severe stomach pain. Nausea, vomiting.

Skin contact
Causes severe burns.
Symptoms following overexposure may include the following: pain or irritation, redness. blistering may occur.

Eye contact
Causes serious eye damage.
Symptoms following overexposure may include the following: pain, profuse watering of the eyes, redness.

Reaction mass of butane-2,2-diyldihydroperoxide and di-sec-butylhexaoxidane

Acute toxicity - oral
ATE oral (mg/kg) Acute toxicity - inhalation
500.0

ATE inhalation (vapors mg/l)
11.0

12. ECOLOGICAL INFORMATION

Ecotoxicity
Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.

Toxicity
Based on available data the classification criteria are not met.

Persistence and degradability
The degradability of the product is not known.

Bio-accumulative potential
No data available on bioaccumulation.

Mobility in soil
The product is partly soluble in water and may spread in the aquatic environment.

Results of PBT and vPvB assessment
This product does not contain any substances classified as PBT or vPvB.

Other adverse effects
None known.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

General information
The generation of waste should be minimized or avoided wherever possible.
Reuse or recycle products wherever possible.
This material and its container must be disposed of in a safe way.
When handling waste, the safety precautions applying to handling of the product should be considered.
Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out.
Empty containers or liners may retain some product residues and hence be potentially hazardous.
Disposal methods
Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Incineration or landfill should only be considered when recycling is not feasible.

14. TRANSPORT INFORMATION

UN number

| UN No (ADR/RID) | 3105 |
| UN No. (IMDG) UN | 3105 |
| UN No. (ICAO) | 3105 |
| UN No. (ADN) | 3105 |

UN proper shipping name

Proper shipping name (ADR/RID)
ORGANIC PEROXIDE TYPE D, LIQUID
(RAction mass of butane-2,2-diyldihydroperoxide and di-sec-butylhexaoxidane)

Proper shipping name (IMDG)
ORGANIC PEROXIDE TYPE D, LIQUID
(RAction mass of butane-2,2-diyldihydroperoxide and di-sec-butylhexaoxidane)

Proper shipping name (ICAO)
ORGANIC PEROXIDE TYPE D, LIQUID
(RAction mass of butane-2,2-diyldihydroperoxide and di-sec-butylhexaoxidane)

Proper shipping name (ADN)
ORGANIC PEROXIDE TYPE D, LIQUID
(RAction mass of butane-2,2-diyldihydroperoxide and di-sec-butylhexaoxidane)

Transport hazard class(es)
| ADR/RID class | 5.2 |
| ADR/RID label | 5.2 |
| IMDG class | 5.2 |
| ICAO class/division | 5.2 |
| ADN class | 5.2 |

Transport labels

Packing group
Not applicable.

Environmental hazards

Environmentally hazardous substance/marine pollutant
No

Special precautions for user
| EmS | F-J, S-R |
| Emergency Action Code | 2WE |
15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations
Health and Safety at Work etc. Act 1974 (as amended)
The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"].
EH40/2005 Workplace exposure limits.

EU legislation

Chemical safety assessment
No chemical safety assessment has been carried out.

16. OTHER INFORMATION

Classification procedures according to Regulation (EC)

Training advice
Only trained personnel should use this material.

Hazard statements in full
H225 Highly flammable liquid and vapor.
H242 Heating may cause a fire.
H302 Harmful if swallowed.
H314 Causes severe skin burns and eye damage.
H318 Causes serious eye damage.
H319 Causes serious eye irritation.
H332 Harmful if inhaled.
H336 May cause drowsiness or dizziness.

We believe the law requires us to inform you that detectable amounts of any of the listed chemicals might be present in this product. Based on a review of the list, this product, like all synthetic and naturally occurring chemical substances, may conceivably contain trace contaminants of some of the listed substances. While not necessarily added to our products as ingredients, some of the listed chemicals may be present in the raw materials as received from suppliers over which we have no control.

Preparation Date: 1-2-2019
Comments: This Safety Data Sheet was prepared using information provided by the manufacturer

Information in this SDS is from available published sources and is believed to be accurate. No warranty, express or implied, is made and we assume no liability resulting from the use of this SDS. The user must determine suitability of this information for his application.
