TotalBoat TotalStrip Paint Remover - Tech Data Sheet

SUPPORT PRODUCTS:

Cleanup:	Water

COMPATIBLE SUBSTRATES:

Wood:	Yes
Stone:	Yes
Metal:	Yes
Fiberglass:	Yes

APPLICATION:

1:	Apply TotalBoat TotalStrip between 1/4 to 1/2 inch thick using a brush, putty knife, or roller.
2:	Allow paint stripper to work through the layers of paint, with more layers requiring longer time.
3:	Lift off finishes using a putty knife or stiff brush.
4:	Remove remaining residue using a brush or stripping pad with water.
5:	Make sure the surface is completely dry before priming or painting.

APPLICATION DATA:

Application Method:	Brush, Putty Knife, or Roller
Number of Coats:	1
Components:	One
Film Thickness (per Coat):	1-2 mils dry (3 mils wet)
Application Temperature:	60-80ºF
Application Humidity:	0-90%
Coverage (per Gallon):	50-75 sq. ft.

PHYSICAL DATA:

Solids (by Weight):	12.22 %
Solids (by Volume):	8.76 %
Weight (per Gallon):	9.16 lbs.
VOC Weight (per Gallon):	8.04 lbs.
Water Weight (per Gallon):	0 lbs.
VOC (g/L):	990
Color:	Beige
